## THE LEADING MEN

(65 HALF HOUR EPISODES)

**T**hey were tough, rugged, handsome, and yes, sometimes vulnerable. The Leading Men of Hollywood! Each program is a study of their film careers, as well as an insight into their personal lives through newly discovered footage that spotlights those loveable rogues as they lived out all our fantasies. Men admired them, women fell madly in love with them and all were to feel the impact of their lasting presence that would touch our lives forever. They have all lived life larger than the Silver Screen; their lusty appetites for women, the adventures and yes, even their mischief was legendary. Some of them were the Bad Boys of Hollywood, some of them, Gentlemen of Hollywood --- some comical --- some dramatic. But, their common bond...they were and are, the Superstars of Hollywood!
